The Rullroad Cut.

Chicago, 20.—The railroad war leases nothing in activity. Wakash made a 50c rate to St. Louis to-day, which neither the Illinois Central nor Allon would meet. At this rate the Wakash must pay at least 50c, (bridge toll) for each passenger it secures. He announcement of the Alton Road that it would give cheap rates from Kaosas City and St. Louis to the principal cities of the cast seems to have caused something of a panic among Wabash officials, for they have strety refused to meet the reduction. The Alton's rate is on the basis of \$25,50. Among other cities which are benefited by the Alton's reduction are Boston. Bellimore, Philadelphis and Columbur; by the C & R. line, Dayton, Louisrille. Washington, Buffaio and Detroil. The Alton Road, which seems to be forcing the light which was forced on it, claim that it can continue its present gait indefinitely; that it less little or nothing, and two eastern lines have officed to pro rate with them on their cut to eastern cities. If this should be accepted and the cutting east goes on, it is difficult to see how other enatern reads could keep out of the fight. It is understood that the Wabash is ready to derive a trace on any reasonable basis.

Athens, 21.—The King, in his speech at the opening of the Chambers, said: I hasten to tak the couperation of the Chambers to enable me to carry out the national duties imposed upon me. These duties are unusually serious, but the sentime to of the nation are proportionably infly. The relations of Greace with foreign powers are friendly. I have to express my gratitude to the countries I have visited whose arbitrament has given to Greece a frontier strengthening and extending her boundaries. The execution of the decision of the powers impress upon us socion, the regulation of which will chiefly engage your delicerations. Government has already made extensive military and naval preparations, for which loans have been contracted, and which members will backed to ratify. The nation has undertaken heavy obligations. The army will not be disbanded until the establishment of a new order of things in the territory awarded to Greece. I am fromly resolved to eff ct as speedily as possible that for your cooperation as faithful exponents of the national will. Such work will be blessed by God. The speech was recrired with Icul and prolonged cheering.

New York, 21.—Judge Shipman, in the United States circuit court, gave a decision, yesterday, in the suit of Badden & to, against Collector Merritt, the particulars of which were given a day or two since, directing a vardict in favor of the defendant, on the general ground that the value of a Mexican silver dollar having been estimated by the director of the mint, and the secretary of the treasury having duly proclaimed the value as the estimated value for the purpose of distrimination of the dutiable value of importation, there could be no inquiry into the question as to the director of the mint. The court then directed a verdict to be entered for defendant, and the jury were discharged.
